Please use this Manual together with the Service Manual Order No. PAPTH141101CE

WARNING

The service information is designed for experienced repair technicians only and is not designed for use by the general public. It does not contain warnings or cautions to advise non-technical individuals of potential dangers in attempting to service a product. Products powered by electricity should be serviced or repaired only by experienced professional technicians. Any attempt to service or repair the product or products dealt with in this service information by anyone else could result in serious injury or death.

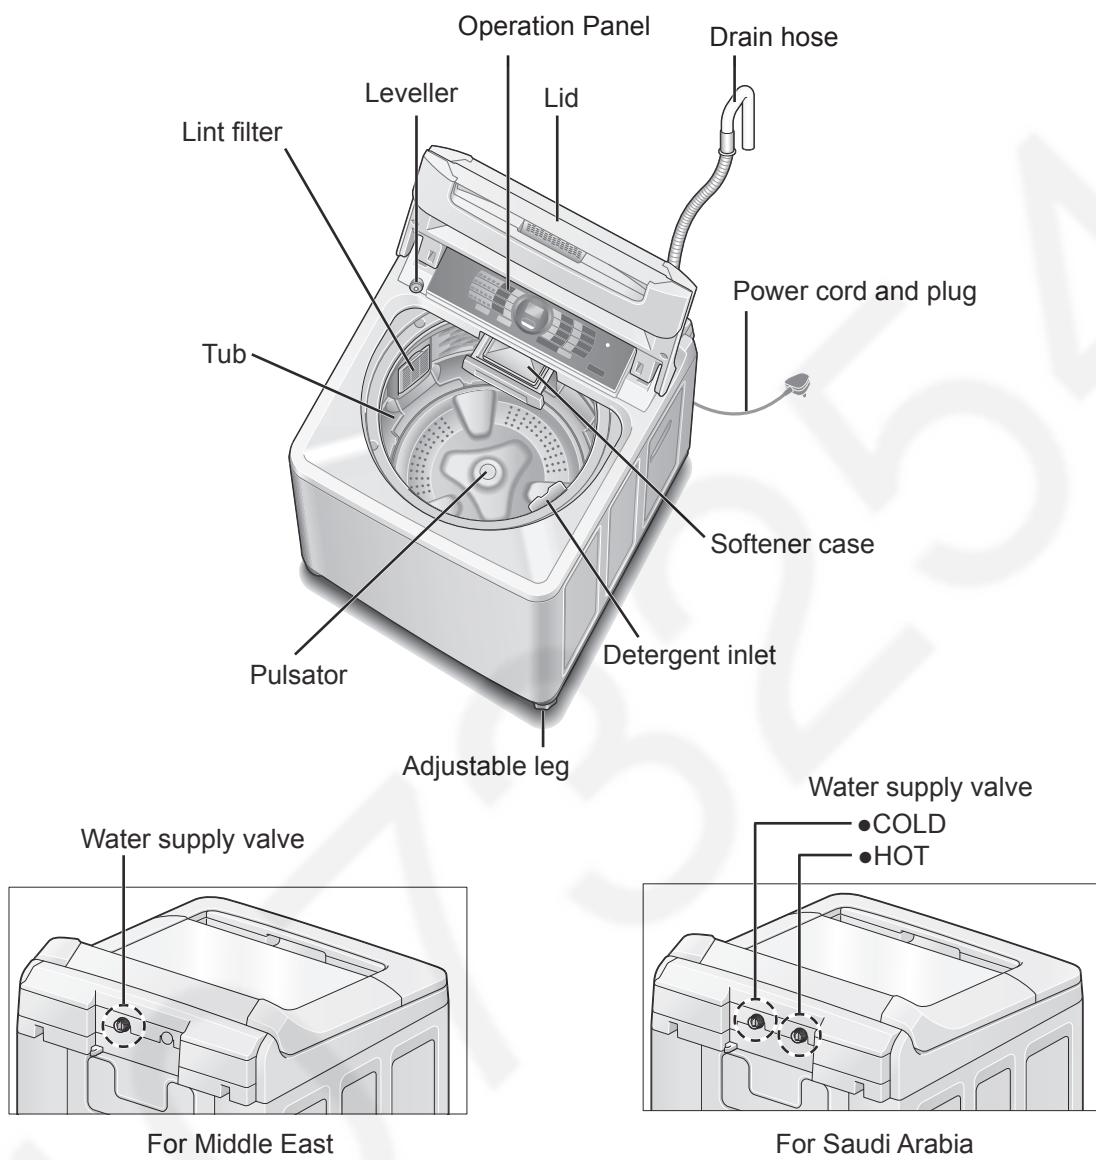

IMPORTANT SAFETY NOTICE

There are special components used in this equipment which are important for safety. These parts are marked by  in the Schematic Diagrams, Circuit Board Diagrams, Exploded Views and Replacement Parts List. It is essential that these critical parts should be replaced with manufacturer's specified parts to prevent shock, fire or other hazards. Do not modify the original design without permission of manufacturer.

WATER SAVE	80 min	12 min	3 times	5 min
TUB HYGIENE	150 min	(Soak 60min)+12 min	Refill 2 times	7 min

Note : -Total time is approximate (When the standard water supply rate is 15 L / min).

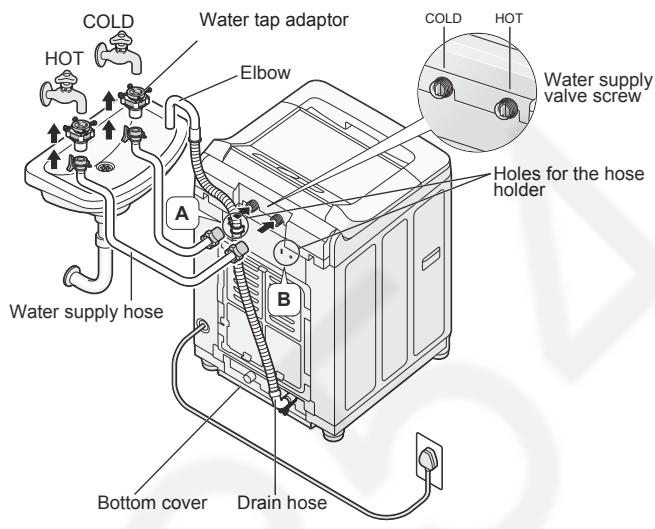

-Total time may increase depending on low water pressure, bad draining conditions, and the amount and type of clothes.

INSTALLATION

1. Check the location.

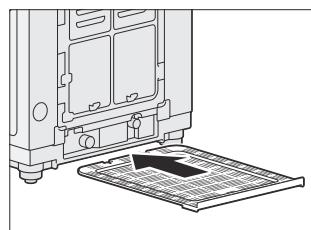

■ Avoid the following locations for installation.

- Locations with a possibility of freezing
- Damp locations or locations where it may be exposed to rain, etc.
(To prevent electric shock or fire)
- Locations exposed to direct sunlight
(To prevent malfunction or deformation)
- Uneven or unstable locations (on blocks, timbers, a table with wheels, etc.)

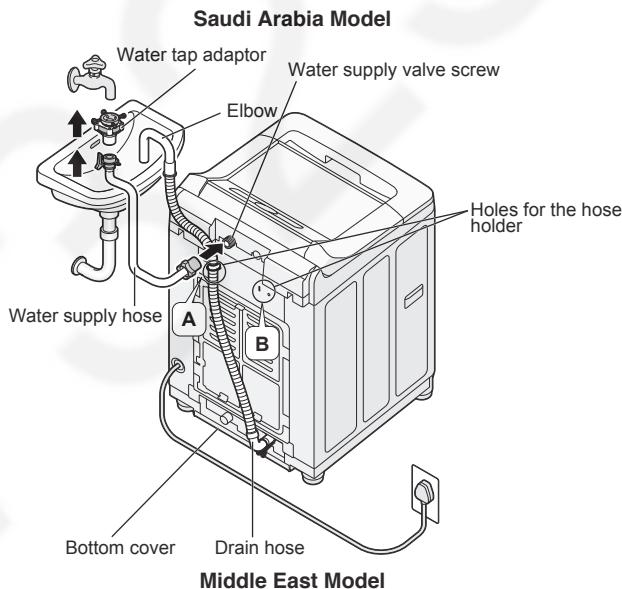

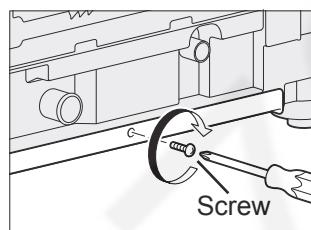

2. Attach the bottom cover.

Insert the bottom cover along the guides.

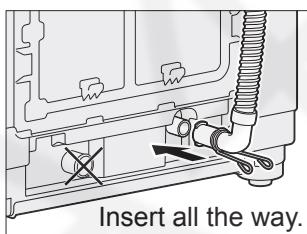

Fix with 2 screws.

3. Attach the external drain water hose.

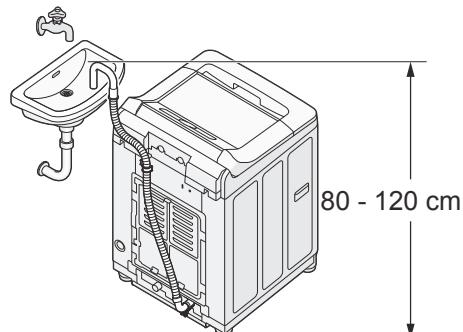

Connect.

Hook the elbow of the drain hose to the basin.

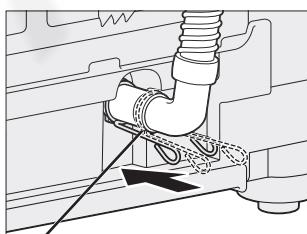

CAUTION

Make sure the drain hose is securely hooked so that it does not come off by water pressure during drainage.

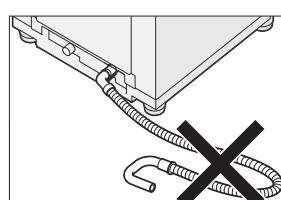

Slide the hose band in the arrow direction.

- Slide all the way until it stops.

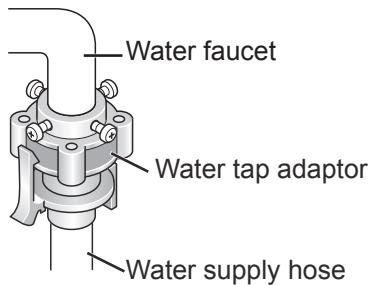

NOTE

- Do not twist, pull out or bend the drain hose.
- Do not put the hose tip under water.
- Do not direct the drain hose downwards.

4. Connect the water tap adaptor and water supply hose.

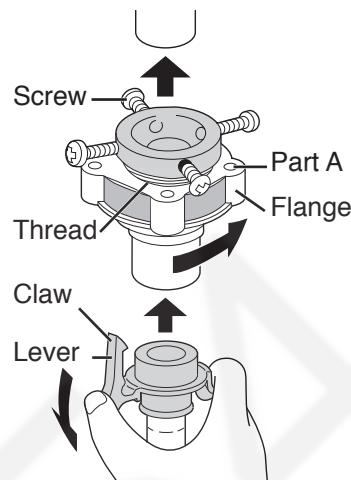

CAUTION

- Tighten the nut firmly.
- Do not twist, squash, modify or cut the hose.

Connect the water tap adaptor to the water faucet.

- 1 Turn part A to the left until approx. 4 mm of the thread becomes visible.
- 2 Loosen the 4 screws.
- 3 Connect to the faucet and tighten the screws.
- 4 Turn part A to the right and tighten securely. (To prevent water leakage)

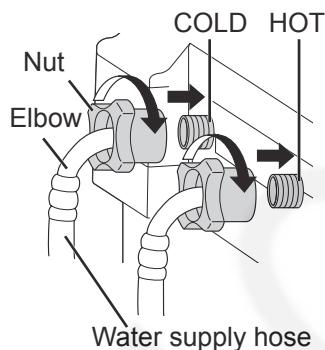

Connect the water supply hose to the water tap adaptor.

Insert the hose into the adaptor while pushing down the lever, and hook the claw of the lever on the flange of the adaptor.

For Saudi Arabia

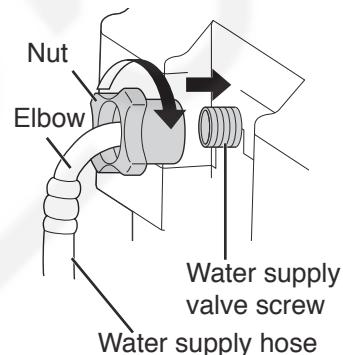

Water supply valve screw

Connect the water supply hose to the water supply valve screw.

- 1 Hold the elbow and tighten the nut.
- 2 Check that the elbow is not loose.

For Middle East

CAUTION

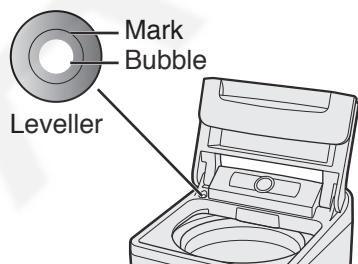

- Do not make wrong connection for the HOT and COLD water supply faucets.
- Tighten the nut firmly.
- Do not twist, squash, modify or cut the hose.

5. Connect the power plug and grounding wire.

- Ask a service person to do the grounding work.
- In case of a 2-pin power cord, establish a ground.

6. Check the washing machine is level.

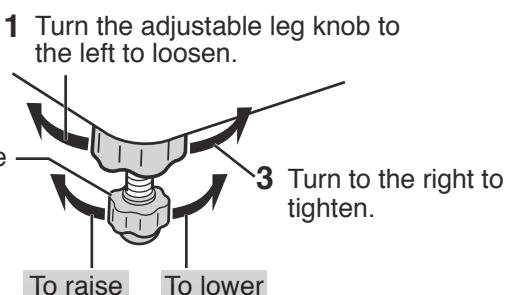

The bubble should be at the centre of the mark.

■ If the bubble is out of the mark

- 1 Turn the adjustable leg to the left to loosen.
- 2 Turn the adjustable leg to eliminate wobble.

Perform a trial operation.

- Check that there is no water leakage, abnormal sounds or error display.

OPERATION PANEL / MIDDLE EAST

NA-F150A3

Change water level

During the wash process, press "Water Level" to change the water level.

- Some water levels cannot be selected depending on the program.
- When the remaining time is displayed, press "Water Level" to check the water level.

Water level/remaining time

96 L

After starting operation, indicates the water level according to the amount of laundry.

Time Left
60 min

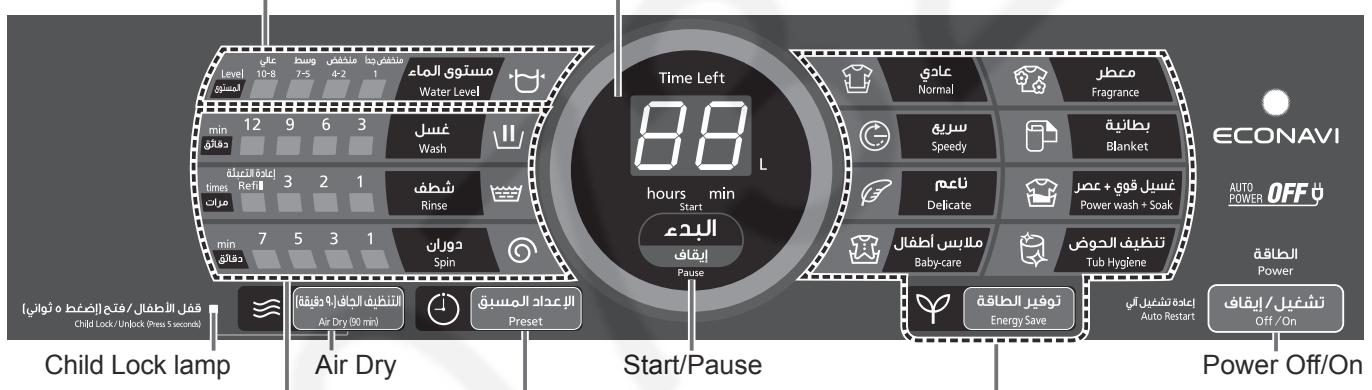

After approx. 5 seconds, indicates the approximate remaining time (min).

Water level/water amounts

Level	High 10-8	Mid 7-5	Low 4-2	Extra Low 1
Detergent *	2 scoops	1 scoop	1/2 scoop	1/4 scoop
Water amount (L)	96 88 81	74 66 59	52 46 38	33

* 1 scoop : 1 scoop of detergent

- Each water level, except "Extra Low", has three water amount options that can be switched while the level is lit by pressing "Water Level".

Change process settings

Change the combination of wash, rinse and spin processes, and the time length or number of times for individual processes.

Lighted
Flashing (in progress)

- After starting operation, you can change settings only during wash process by pressing "Start/Pause".

Preset

Set the time to finish washing (in hours). (⌚ lights.)

e.g.) 8 hours later

- Setting range: 2 - 24 hours later, in one-hour increments. (3 - 24 hours later for the Power wash + Soak program)
- Not available for the following programs: Gentle Hand Wash, Fragrance, Blanket, Tub Hygiene, Air Dry

NOTE

- In case of a power failure during operation, operation will resume from the point where it was stopped when the power is recovered (Auto Restart).
- The power turns off automatically if you do not press "Start/Pause" within 10 minutes after power-on.

OPERATIONS PANEL / SAUDI ARABIA

NA-FS16X3

Change water level

During the wash process, press "Water Level" to change the water level.

- Some water levels cannot be selected depending on the program.
- Only during the wash process, press "Water Level" to check the water level.

Water level/remaining time

88 L

After starting operation, indicates the water level according to the amount of laundry.

60 min

After approx. 5 seconds, indicates the approximate remaining time (min).

Water level/water amounts

Level	High 10-8	Mid 7-5	Low 4-2	Extra Low 1
Detergent *	1 scoop	1 scoop	1 scoop	1 scoop
Water amount (L)	99	88	81	74

* 1 scoop : 1 scoop of detergent

- Each water level, except "Extra Low", has three water amount options that can be switched while the level is lit by pressing "Water Level".

Temp Setting

For washing, cold water can be mixed with hot water. Press the button to select Hot/Warm/Cold.

Do not use water hotter than 60 °C.

- The estimated water temperature in the tub during wash process (when hot water is 50 °C, and normal water is 20 °C):

Hot	approx. 40 °C
Warm	approx. 30 °C

- Lamp indications
Lighted: Hot/Warm/Cold is set.
Flashing: Hot water is being supplied.
- Not available for the following programs: Gentle Hand Wash, Tub Hygiene, Air Dry

■ Touch operation

- Operation buttons are capacitive (Except for the power Off/On and Start/Pause buttons). Touch the buttons directly with your bare fingers.
- When a towel containing water or detergent touches an operation button, the appliance may malfunction.

NOTE

- In case of a power failure during operation, operation will resume from the point where it was stopped when the power is recovered (Auto Restart).
- The power turns off automatically if you do not press "Start/Pause" within 10 minutes after power-on.

Preset

Set the time to finish washing (in hours). (⌚ lights.)

⌚

- The power turns off automatically if you do not press "Start/Pause" within 10 minutes after power-on.

WASHING / MIDDLE EAST

Preparation:

- Check if the washing machine is properly installed.
- Turn on the water faucet.

1 After loading laundry

Turn the power on.

- The Normal program is selected when the power is turned on.

2 Select a program.

■ Timer preset

3 Start.

The pulsator moves without water and measures the amount of laundry (approx. 5 seconds).

Water level indication
(approx. 5 seconds)

Remaining time indication
• To check the water level
— Press "Water Level".

4 According to the water level indication
Put in detergent.

- Approx. 20 seconds after the water level is displayed, water supply begins.

5 Close the lid.

Operation ends with beeps.

Set how many hours later to finish operation.

- 2 minutes after start-up, all indications except (④) turn off.
- To confirm after the timer has been set, press (④).
- To cancel or change, press (④).
- The hours that can be set differ depending on the program.

When the Fragrance program is selected

The buzzer sounds before the final rinse and operation is paused. Put the desired amount of softener which has been diluted with water directly into the tub.

- The Fragrance program cannot be selected when Child Lock is set.
- Operation will resume if the lid is left closed for more than 1 hour.

■ After pressing "Start"

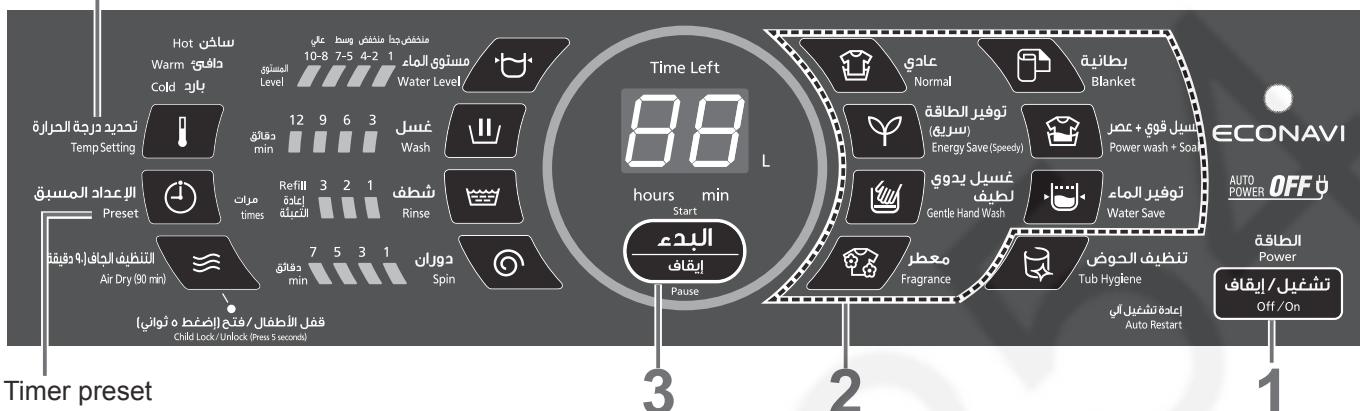

- You can change the water level until the end of the wash process.
- You can change each of the "Wash", "Rinse" and "Spin" operation contents until the end of the wash process. Press "Pause" beforehand.
- You cannot change the program.

WASHING / SAUDI ARABIA

Preparation:

- Check if the washing machine is properly installed.
- Turn on the water faucet.
- When using Temp Setting, turn on both hot and cold water faucets.

Temp setting

→ Press "Water Level".

4

According to the water level indication

Put in detergent.

- Approx. 20 seconds after the water level is displayed, water supply begins.

5

Close the lid.

Operation ends with beeps.

Press to select Hot/Warm/Cold for washing.

Hot ← Warm ← Cold
↑

Set how many hours later to finish operation.

- 2 minutes after start-up, all indications except (⌚) turn off.
- To confirm after the timer has been set, press ⌚.
- To cancel or change, press ⌚.
- The hours that can be set differ depending on the program.

When the Fragrance program is selected

The buzzer sounds before the final rinse and operation is paused. Put the desired amount of softener which has been diluted with water directly into the tub.

- The Fragrance program cannot be selected when Child Lock is set.
- Operation will resume if the lid is left closed for more than 1 hour.

■ After pressing "Start"

- You can change the water level until the end of the wash process.
- You can change each of the "Wash", "Rinse" and "Spin" operation contents until the end of the wash process. Press "Pause" beforehand.
- You cannot change the program.

WIRING OPTIONS

Blanket

■ Washable blankets

- Material: 100 % synthetic fibre or 100 % cotton
- Weight: 4.2 kg or less
- Blankets with a machine-washable tag attached
- Put a blanket in the net and load it in the tub.

NOTE

- Use liquid detergent.
- The water level indication shows the maximum and cannot be changed.

ECONAVI

Available in the Normal program, this function automatically adjusts the operation time and water level according to the detected amount of laundry and water temperature.

ECONAVI will not work if you change the water level or process settings.

■ Lamp indications

- Flashing: Detecting
- Lighted: ECONAVI enabled
- Unlit: ECONAVI disabled

■ Switch on/off

- 1 شغيل/إيقاف
Off/On
- 2 تنظيف المضار
Tub Hygiene
- 3 مسحوق الماء
Water Level
Press and hold for 3 seconds
- 4 مسحوق الماء
Water Level
to select (On) or (Off)
- 5 البدعم
Add water
6 beeps

* Test conditions:

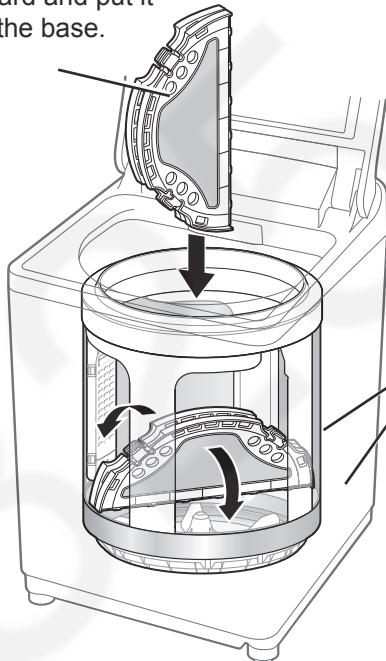

- Normal program
- Comparison between ECONAVI-enabled operation (amount of laundry: 4.0 kg, water temperature: above 35 °C) and ECONAVI-disabled operation (amount of laundry: 16.0 kg (rated capacity), water temperature: below 15 °C)
- Test was conducted based on IEC60456 except for water temperature.

Gentle Hand Wash

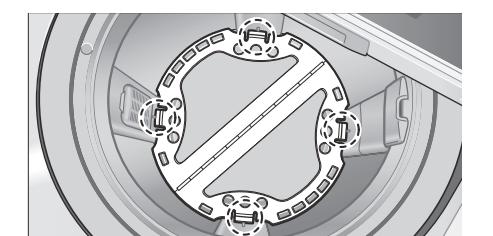

Use this program to gently wash delicate clothes and stylish garments.

Attach the washing board.

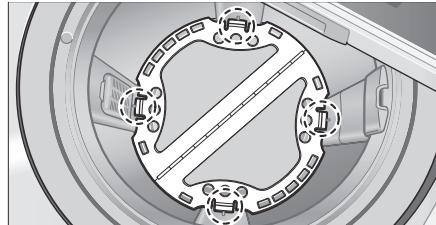

- 1) Double up the board and put it in the base.

- 2) Align the position and open the board.

- 3) Press the board circumference and fix it.

- Set the claws (4 places) securely.

Load the laundry.

Load laundry evenly.

- Load lighter items first and press them from above.
- Use laundry nets for delicate underwear only.
- Amount that can be washed at one time:

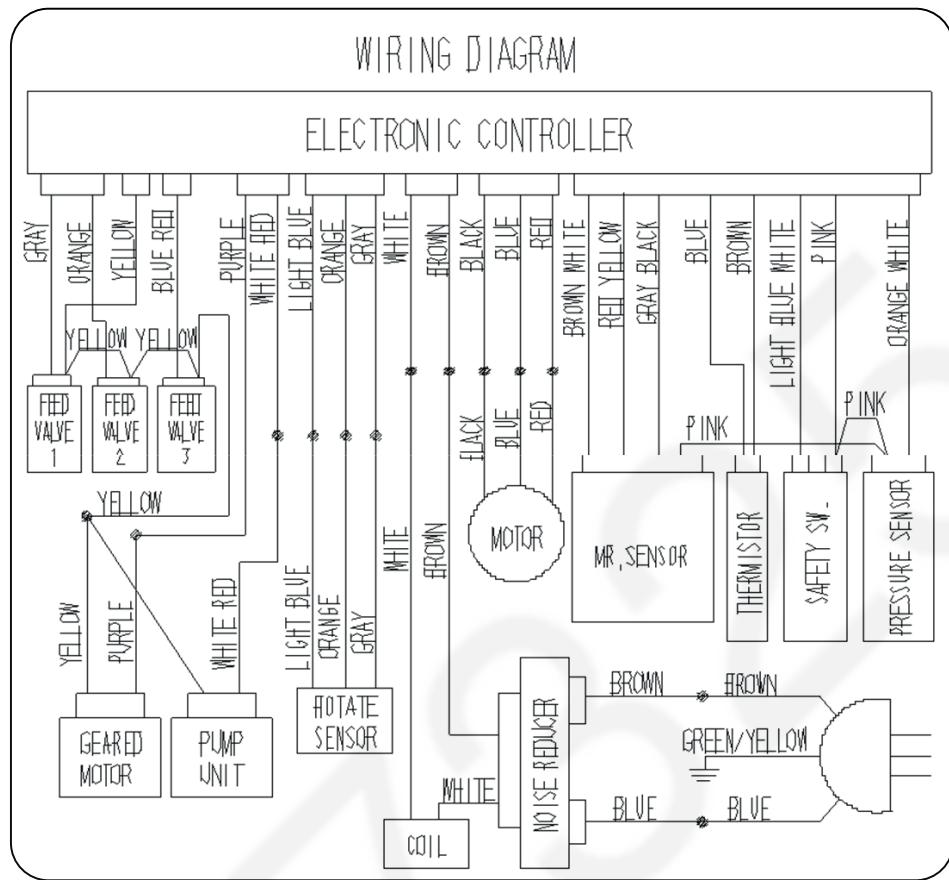

Water Level	Capacity
46 L	2.5 kg
38 L	1.2 kg

NOTE

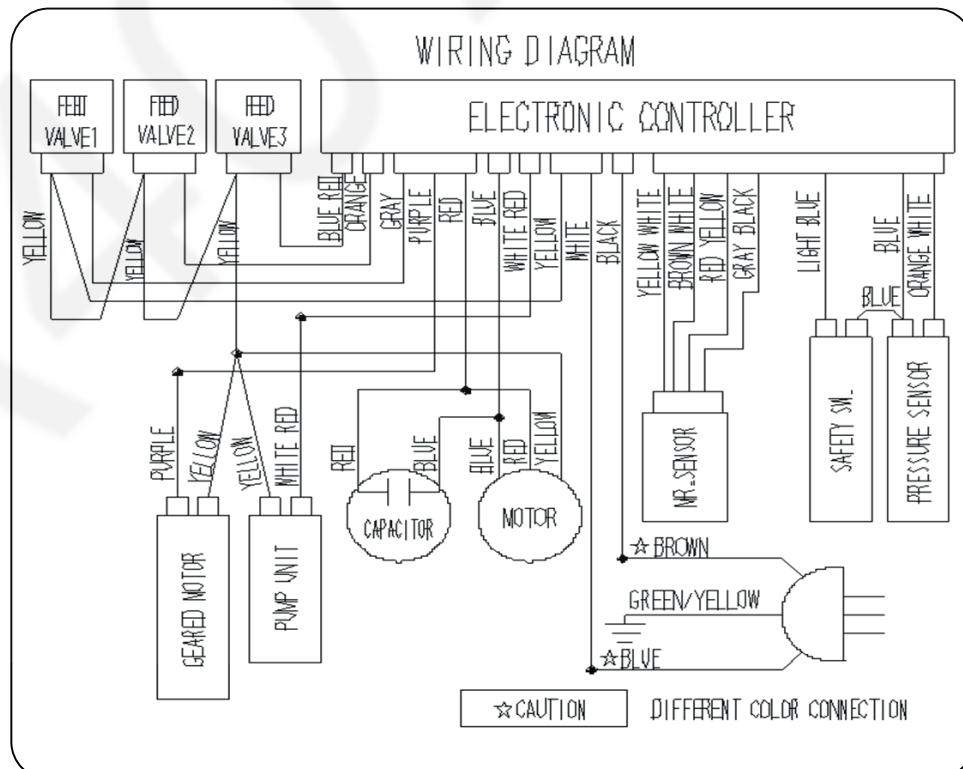

- Do not use bleach.
- Use liquid delicate detergent.
- After operation ends, take out clothes immediately. (To prevent wrinkles and colour staining)
